Overview

Duty-bearers from government agencies and rights-bearers from civil society organizations and advocate institutions are one with the nation in celebrating the 26th Philippine National Autism Consciousness Week to be held from 24 to 30 January 2022. This annual observance was made possible by President Fidel Ramos' Proclamation 711 of 1996 – in inspiring genuine and organic acceptance, accommodation and appreciation of persons on the autism spectrum in our society and our global community. The activities of the week promote action by the public and private sectors towards enabling persons on the autism spectrum to live with dignity, enjoy equal rights and access, function independently and contribute productively. Society should strive beyond “consciousness” or “awareness” and inspire genuine inclusion -- through acceptance, accommodation and appreciation! Public and private institutions are encouraged to spearhead creative activities, events and programs, towards building opportunities for our neurodiverse population, all over the country.

Theme¹

The pandemic has changed our lives profoundly; and more than ever, we need to work together. This year's theme "**Nurturing Public-Private Alliances towards an Autism-OK Philippines**" intends to:

1. nurture partnerships between the government and the private sector to help Filipinos on the autism spectrum and those who care for them, rise above the challenges of the condition and the current economic and health situation;
2. grow a community of allies within the country, the region and the rest of the world, supportive of programs towards genuine disability inclusion – consistent with the ASEAN Enabling Masterplan and the United Nations Sustainable Development Goals #17; and
3. cultivate individual self-awareness, self-expression and feeling of belonging to a compassionate society.

Proponents and Supporters

Autism Society Philippines, SM Cares, in partnership with the Association of Southeast Asian Nations, ASEAN Autism Network, Department of Education, Department of Health, Department of Interior and Local Government, Department of Social Welfare and Development, with the support of the Leonard Cheshire Disability Foundation Philippines, National Council on Disability Affairs and the Norfil Foundation.

The commemoration was enriched by the support and leadership of the Ateneo Autism Study Group, Divergent, Manulife, Philippine Children's Medical Center, Philippine Society of Developmental and Behavioral Pediatrics, SLMC Center for Autism and Developmental Medicine, Smart Parenting, Willis Towers Watson.

The commemoration is felt at the grassroots through the efforts of a nationwide network of chapters of the Autism Society Philippines and their partners: Between & Beyond Lines Learning and Intervention Services (Benguet), A Child's DREAM Foundation (Benguet), CIIT College of Arts and Technology (NCR) Play and Say Therapy Center (Benguet), St. John Paul II Learning Center, Inc. (Benguet), Wyldrick's Learning Center (Benguet).

The New Imagery

NACW2022 Banner Template (Google Drive): <https://bit.ly/3FhUpNi>

The absence of the puzzle imagery in materials created by the Autism Society is deliberate. The premiere autism advocacy group does not support the use of the puzzle icon to represent autism, as persons on the spectrum should neither be illustrated as "mind-boggling" nor "incomplete". In contrast, the sunflower faces the light. It is a fitting representation of a community that finds strength and hope amid life's challenges.

The Hidden Disabilities Sunflower is a globally recognized symbol for hidden or non-apparent disabilities -- such as autism. People living with hidden disabilities often face barriers in their daily lives including a lack of understanding and negative attitudes. So some choose to wear the Hidden Disabilities Sunflower to discreetly identify that they may need support, help, or just a little more time in shops, transport, or public spaces. Wearing the Hidden Disabilities Sunflower lanyard discreetly indicates to people around the wearer including staff, colleagues and health professionals that they need additional support, help or a little more time. Although one may not be able to see these challenges, they're still there.

Since its launch in 2016 in the United Kingdom, it has now been adopted globally by major airports and venues. The Autism Society Philippines and SM Cares are launching this campaign in 2022, in support of an Autism-OK Philippines.

The community of the Autism Society Philippines feels the weight of the pandemic straining our abilities to go out and live life the way we used to. All families have been touched by COVID-19, directly and peripherally. We have decided to forego the Angels Walk for Autism in 2020, and to commemorate the National Autism Consciousness Week in the safety of our homes, with events and campaigns that reflect our passionate advocacy for the acceptance, accommodation and appreciation for Filipinos on the autism spectrum, that shines brightly and has not ebbed over the years.

Opening Ceremonies: 1Bansa 1Pangako
24 January 2022, Monday, 8am Via FB Live

FB Live: <https://www.facebook.com/autismphils>

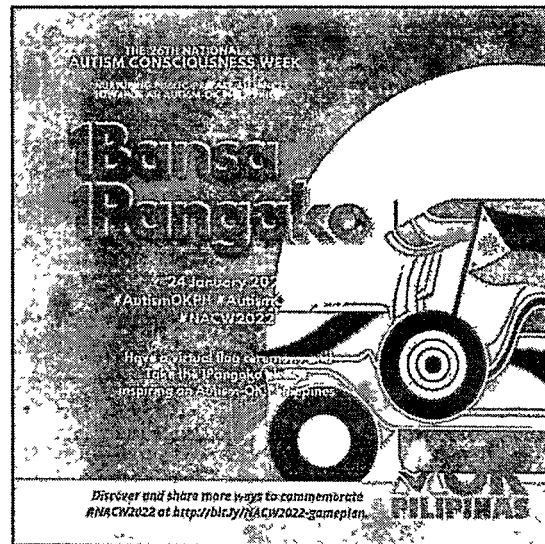

The virtual opening ceremonies kicks off the commemoration of the 26th Philippine National Autism Consciousness Week to be held from 24 to 30 January 2021, made possible by President Fidel Ramos' Proclamation 711 of 1996.

This initiative aims to get various government units and private groups to begin the week with an on-line flag ceremony that will promote awareness of autism as a human condition; and inspire action by the institution towards autism-inclusive policies and procedures.

Participating agencies and private institutions are requested to prepare a video for broadcast via Facebook Live on their pages with the following elements:

1. The Philippine National Anthem (c/o agency/institution, LGU or ASP - see toolkit below)
2. The 1Pangako pledge read by an agency/institution personnel or a person on the autism spectrum (clips available - see toolkit below)
3. A message from a high ranking executive about the importance of the National Autism Consciousness Week.

Autism is a complex and lifelong developmental exceptionality, challenging an individual's ability to communicate, socialize and adapt to the world around him. This spectrum condition manifests uniquely in different persons and may or may NOT be coupled with sensory and intellectual disabilities. It is a variation of the human condition affecting approximately 1.2 million Filipinos and needs our acceptance, accommodation and appreciation. This webinar is designed for parents and family members of newly-diagnosed children, teachers, and barangay healthcare workers. We will explore facts about autism, the different interventions and practical tips for the home and school.
