2. The activity aims to strengthen the capacity of teaching and teaching-related personnel by equipping them with the knowledge and skills to construct classroom assessment items aligned with the structure, format, and quality of those used in national and international large-scale assessments. Further, the training seeks to promote uniformity in classroom item development, ensuring that local assessments effectively support learner readiness for national and international measures of learning outcomes.

3. The target participants of the training shall include teaching and teaching-related personnel who meet the qualifications and training requirements specified below.

Batch	Target Participants	Qualifications	Training Requirements:
1	Master Teachers teaching English, Science, or Mathematics at the Elementary, Junior and Senior High School Levels	At least Master's Degree Holder	- Participants must be highly knowledgeable about the national and classroom assessments. - The activity requires the necessary skills and knowledge in subject content and pedagogy as part of regular tasks of the target participants in reviewing and critiquing summative examination. - Their role ensures that classroom assessments are valid, reliable, and aligned with curriculum standards, making them best positioned to construct classroom assessment items that are consistent with national assessment frameworks.
