**II. AMENDMENT TO THE COMPLETED CONTRACT REQUIREMENT
ITB Clauses 5.4 and 5.5 and Corresponding Bid Data Sheet Provisions**

Following the inquiry raised during the Pre-Bid Conference, and to ensure broader bidder participation while establishing bidders' technical capacity, the Bids and Awards Committee (BAC) approved the adoption of the alternative completed contract requirement under ITB Clause 5.5.

Accordingly, the completed contract requirement for this Project is hereby amended to allow bidders to comply through **either** of the following:

1. Single Largest Completed Contract (SLCC)

The bidder must have completed, within the last five (5) years prior to the deadline for the submission and receipt of bids, one (1) contract similar to the Project, with a value of at least fifty percent (50%) of the Approved Budget for the Contract (ABC); **or**

2. Combination of Completed Contracts

The bidder may submit a combination of contracts completed within the same five (5)-year period, with a total value of at least fifty percent (50%) of the ABC, subject to both of the following conditions:

- a. At least one (1) completed contract must be similar to the Project and must have a value of at least twenty-five percent (25%) of the ABC; and
- b. Other completed contracts, whether similar or not, must have an aggregate value of at least twenty-five percent (25%) of the ABC.

The similar contract submitted under paragraph (a) shall be separate from the other contracts submitted under paragraph (b), and its value shall not be counted again in determining compliance with paragraph (b).

For either option, **similar contracts** shall refer to the **supply and delivery of science and mathematics learning tools and equipment; physics laboratory tools, apparatus, and accessories; mechanics, electricity, and magnetism tools and equipment; electrical circuit components and accessories; scientific measuring, experimental, or demonstration apparatus; instructional physics models and kits; laboratory hand tools; or other goods of similar nature and complexity to the Project**, as applicable to the Project being bid.

Bidders availing themselves of the combination-of-contracts option shall identify the contracts submitted to satisfy paragraphs (a) and (b) and submit the corresponding supporting documents required under the Bidding Documents.

This Supplemental Bid Bulletin is issued for the information and guidance of all concerned. It shall form an integral part of the Bidding Documents for the above-mentioned project.

All other provisions of the Bidding Documents not affected by this bulletin shall remain in full force and effect.

For information and guidance.
