EARTHLINGS: ENVIRONMENTAL AWARENESS PRODUCTION

Aligned with the mandate of RA No. 9512 (the National Environmental Awareness and Educational Act), the Earthlings share a vital mission to transform learners from passive observers into climate-conscious leaders equipped to make responsible, and sustainable decisions through the Earthlings, the Philippines' first-ever, awe-inspiring environmental production.

Participation of learners, teachers, and/or educators from both public and private schools is purely **VOLUNTARY** and shall take place within the end-of-term block in compliance with the provisions of DepEd Order No. 009, s. 2026 titled Guidelines on the Implementation of the Three-Term School Calendar in Basic Education, DepEd Order No. 12, s. 2025, titled Multi-Year Implementing Guidelines on the School Calendar and Activities and DepEd Order No. 9, s. 2005, entitled Instituting Measures to Increase Engaged Time-On-Task and Ensuring Compliance Therewith and the policy on off-campus activities stated in DepEd Order 66, s. 2017.

This is also subject to the no-collection policy as stated in Section 3 of RA 5546, also known as An Act Prohibiting the Sale of Tickets and/or the Collection of Contributions for Whatever Project or Purpose from Students and Teachers of Public and Private Schools, Colleges and Universities (Ganzon Law), issued in DepEd Order 19, s. 2008, and reiterated in DepEd Memorandum No. 041, s. 2024.

A Magical Coalescence of Arts and Science

Earthlings

The Country's First Science-Themed Light Show

09 October 2026

ESTELA P. LEON-CARINO, CESO III
Regional Director
Department of Education-Region 1

Dear Ma'am,

We stand at a critical crossroads for our planet's future, and the classroom is where the rescue mission begins.

Aligned with the mandate of **RA No. 9512 (the National Environmental Awareness and Educational Act)**, we share a vital mission: to transform learners from passive observers into climate-conscious leaders equipped to make responsible, sustainable decisions.

To help the Region champion this mandate, I am thrilled to introduce a transformative educational experience: **Earthlings, the Philippines' first-ever, awe-inspiring environmental awareness production.**

Backed by the principles and support of the **International Astronomical Union (IAU), UNESCO, NASA, UP Astrosoc, DOST**, and the **DENR**, this program offers world-class curriculum integration that your schools simply cannot miss. The Earthlings Experience

Earthlings moves beyond traditional textbooks by bridging the analytical brain and the emotional heart. We utilize an out-of-the-box, immersive outdoor learning model that proves environmental education is most effective when it is deeply felt. By merging STEM subjects with the creative arts, we guarantee to capture students' imaginations.

The production features two core immersive portals:

Activity 1: LUMINA

A breathtaking, 30-minute luminescent "edutainment" showcase. This visual and auditory masterpiece seamlessly weaves Arts, Music, and Science together to illuminate young minds and foster a profound, emotional connection to planetary preservation.

Activity 2: Digital Planetarium

Display the process of creation dynamics, and its basic components in which matter got its model or existence, development, and extinction in a modern digital manner. Helping students grasp abstract astronomical concepts in light of sparking their enjoyment and interest in science.

Exclusive Bonus Activities Included

- **NASA 3D Anaglyph Photo Gallery:** Students will step into the third dimension with an immersive gallery of NASA's most stunning deep-space imagery. Using 3D glasses, they can explore craters, nebulae, and planetary surfaces with incredible depth, accompanied by educational descriptions that explain the science behind each shot.
- **Authentic Meteorite Touch Experience:** A truly rare, hands-on opportunity for students to hold actual pieces of space history. This interactive display features genuine meteorite fragments, allowing students to touch matter that is billions of years old while learning how scientists track and analyze space rocks.

We want this division's learners to be at the forefront of this educational revolution. Partnering on this initiative will not only elevate your division's science and environmental curriculum but will also leave a lasting, unforgettable impact on your students.

Let's collaborate to ignite a more environmentally conscious and responsible society. I would be honored to schedule a brief meeting to discuss how we can seamlessly integrate *Earthlings* into your upcoming school calendar.

Thank you for your visionary leadership and dedication to our learners.

Warmly,

Gedeon A. Tunac Jr.

Program Director
